## **OFFICE ACTION**

### ***Reissue Applications***

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declaration is defective. The declaration uses the clause "we acknowledge the duty to disclose all information of which we are aware that is material to the examination of this reissue" This clause is no longer valid. It must now state "material to the patentability".

Claims 1, 4-12, 15-38, 40-109 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period.

The removal of the "means within the waveguide region for generating an optical mode of photons" from the new independent claims 38,41,42,44,46,47,48,49,53, and 55 constitutes improper broadening. The removal removes the function performed, which is actually one of the claimed limitations (112 6<sup>th</sup>). A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
